

MATERIAL HANDLING FANS

SEVERE DUTY SERIES

COMPLETE FAN HOUSING CONSISTS OF:

REPLACEABLE WEAR LINERS
TRANSFORMER
SIDE PLATES
SCROLL

APPLICATIONS:

Severe duty fans are recommended on applications where substantial wear on the fan is anticipated. The housing and fanwheel construction features are listed below. Other features are the same as the other material handling fans.

HOUSINGS:

The scroll and sides are made of 1/4" mild steel plate.

The scroll has 3/8" Abrasive Resistant steel replaceable wearliners. The fans have a split housing to facilitate removability of the wearliners.

FANWHEELS:

The fanwheel is made of 1/2" mild steel plate with a diamond pattern of hard-facing on the face of each blade.
